

Ehrfeld Achema Events 2018, 11th-15th of June, Frankfurt

Monday, June 11th, 2018, 15:00 – 17:30 h, CongressCenter Messe Frankfurt (CMF), Raum Conclusio 1

Panel discussion on Flow Chemistry:

“Challenges and opportunities of Micro Reaction Technologies”

Organisation: Wiley-VCH Verlag GmbH & Co. KGaA; CHEManager

Wednesday, June 13th, 2018, 15:45h - 16:15h in the Session "Flow chemistry symposium", hall 9.2 Discussion Corner

Oral Presentation: "Holistic Implementation of the Technology Platform Micro- and Millireactors"

Anne Kaaden, Ehrfeld Mikrotechnik GmbH

Thursday, June 14th, 2018, 10:30h - 11:00h in the Session "Reaction technology - Microstructured reactors", CongressCenter Messe Frankfurt (CMF), Raum Fantasie 2

Oral Presentation: "Flow Technology goes Production in Millireactors"

Dr. Marc-Oliver Piepenbrock, Dr. Rafael Kuwertz, Ehrfeld Mikrotechnik GmbH

Friday, June 15th, 2018, 12:00-12:45 h, hall 11.1 Foyer – Northwest (Level 1)

Presentation: “Status of Establishing Micro- and Millireactors”

Dr.-Ing. Joachim Heck, Ehrfeld Mikrotechnik GmbH

Hall 9.2, booth D1a, main Booth Ehrfeld Mikrotechnik GmbH

FLOW CHEMISTRY
PAVILLION  Hall 9.2, booth B29, Ehrfeld Mikrotechnik GmbH

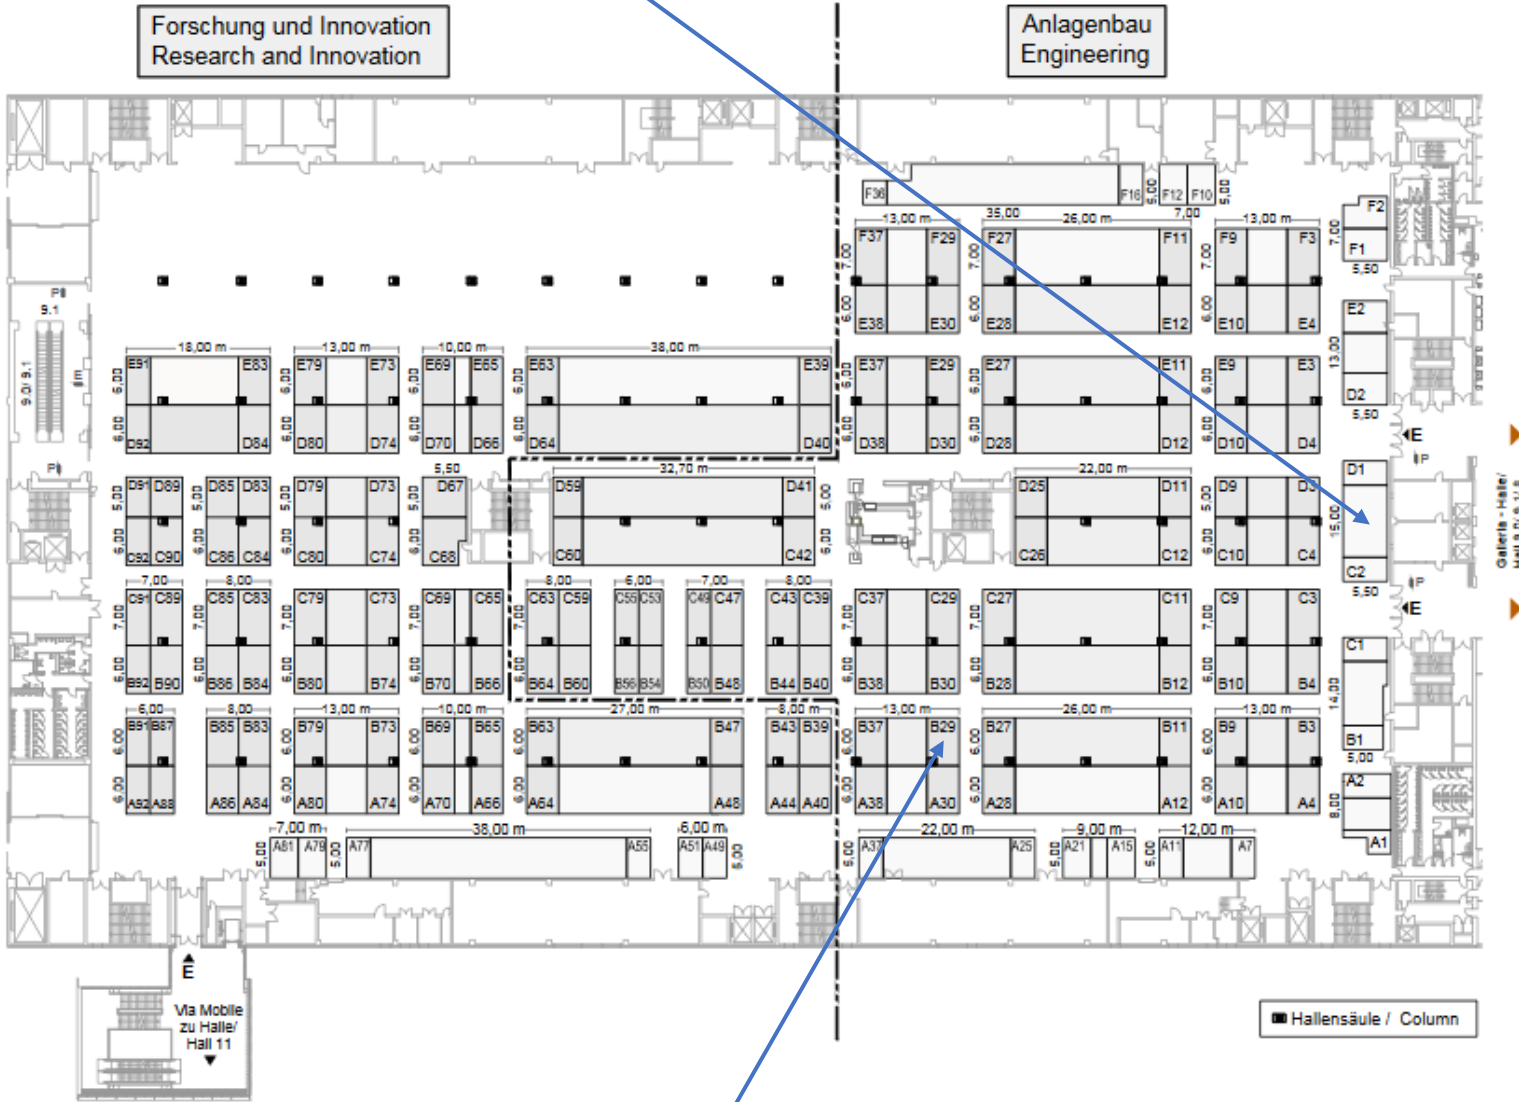

Flow Chemistry Pavilion is presenting innovations in the field of continuous manufacturing and gives a great overview about the status of this market to the visitors. Fast process optimization, short residence times, higher yield, better product quality and enhanced safety are considerable advantages compared to the existing processes.

Hall 9.2

Ehrfeld main booth D1a

Forschung und Innovation
